MEMORANDUM

SUBJECT: Removal Assessment for Chevron Chemical Company
Council Bluffs, Iowa

FROM: Paul E. Doherty, Chief
SINV/EP&R/ENSV

TO: Kerry Herndon
SPFD/WSTM

In response to your request, we have performed a removal assessment for the Chevron Chemical Company site, Council Bluffs, Iowa.

Based on the available information, we do not feel the level and extent of contamination presents an unacceptable exposure threat nor does it qualify for a removal action.

If more extensive contamination is documented (i.e., higher contaminant concentrations or greater contaminated surface area) or if the Agency for Toxic Substances and Disease Registry prepares a Health Advisory for this site, the Emergency Planning and Response Branch would re-evaluate this removal action determination.
